Our Online Investigations Tools

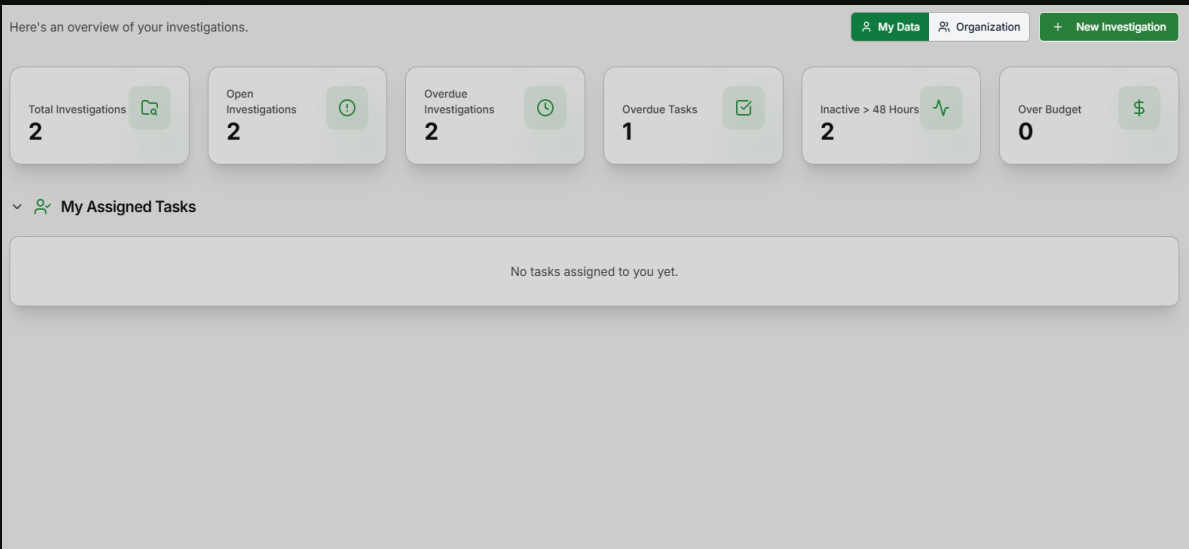

Comprehensive online investigation solutions for the South African and global market

Investigations Management Tool - IMT

Platform Features

- Case Management**
Turn chaos into clarity — build structured cases from hypothesis to closure, keeping every detail organized.
- Immutable Investigation Diary**
Every move is auto-logged forever. No edits, no deletes — creating an ironclad chain of custody.
- Task Allocation**
Assign tasks to your team instantly, track progress live, and crush deadlines without back-and-forth.
- Loading of Multiple Users**
Scale your squad effortlessly — add investigators or analysts in seconds and control permissions precisely.
- Budget Control**
Stay in total command of costs — set limits, get real-time alerts, and avoid nasty surprises.
- AI Powered Analysis and Reporting**
Spots inconsistencies in seconds, saving hours on manual digs with intelligent pattern recognition.

Our Online Investigations Tools

Comprehensive online investigation solutions for the South African and global market

Link Analysis Tool - LAT

Platform Features

Interactive Link Chart Analysis

Create visual intelligence maps by dragging and dropping entities — people, organizations, devices, IP addresses, and more

Advanced Network Analysis Tools

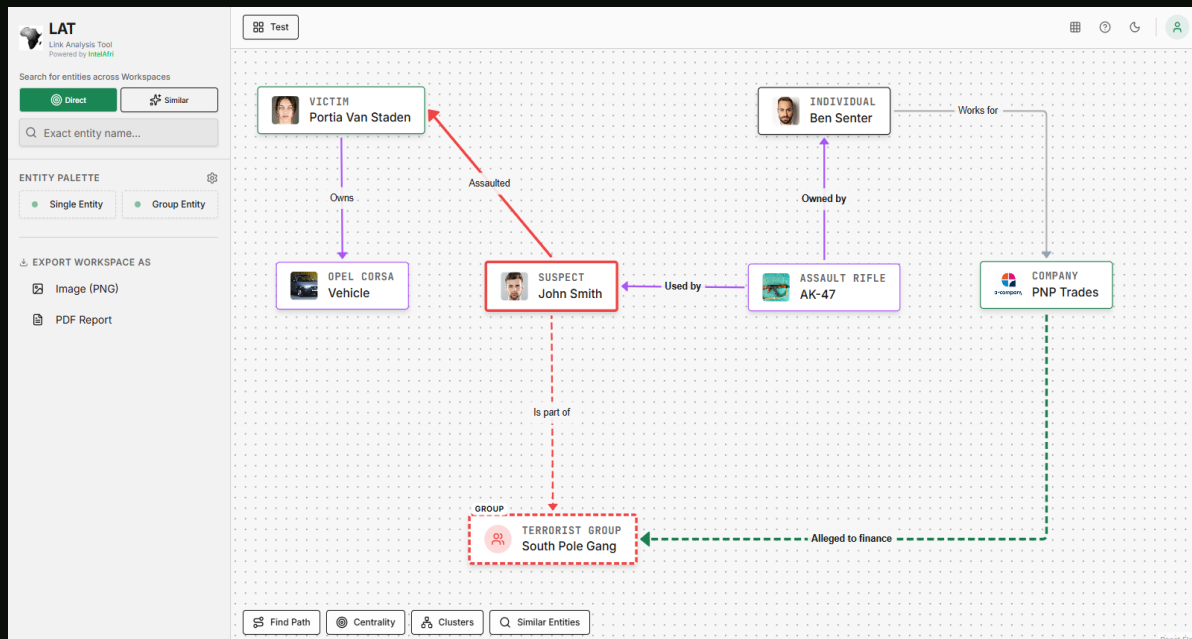

Go beyond simple visualization with built-in analytical capabilities.

Cross-Workspace Entity Search

Search for entities across all your saved workspaces to quickly find and reuse existing intelligence.

Workspace Export & Reporting

Export your link charts as high-quality PNG images or detailed PDF reports for sharing with colleagues or including in briefings.

Why IntelAfri?

Trusted, compliant, and built for South Africa

POPIA Compliant

Every search and report is handled in full compliance with the Protection of Personal Information Act, safeguarding your data and privacy at every step.

Trust & Accuracy

We source data from verified, authoritative databases to ensure every report you receive is accurate, reliable, and actionable.

Built for Everyone

From solo entrepreneurs to large enterprises, our credit-based system lets you pay only for what you need. No subscriptions, no hidden fees.
